

PROCESS INCOMING MAIL WITH INCREASED
EFFICIENCY AND REDUCED COST

OP150

THE USER-FRIENDLY OFFICE SOLUTION FOR QUICK AND PROFICIENT PROCESSING OF INCOMING MAIL

Today's business mail comes in a variety of shapes and sizes. Having someone tear, slice and cut open those mail pieces by hand is incredibly time consuming. And time wasted is money spent unproductively.

One of the best ways to increase productivity is to eliminate the tedious task of manual mail opening. The OP150 Letter Opener can open 32,000 letters per hour. Not only do you increase the speed of mail entering your business stream, but your staff can better utilize the time saved by the OP150. And mixed mail, once a time stopper due to the need to sort it by size, is a breeze to process because the machine can open envelopes up to $\frac{1}{8}$ " thick. Just toss your stack of mixed mail on the feeder and let the OP150 open it for you.

The OP150's milling cutter removes from 0 to .125 of the envelope edge which protects the contents from being cut or damaged. The opening has a soft, feathered edge which prevents paper cuts and provides easy access to the contents. It also contains its own bin to collect the tiny chips that are removed from the envelope as it is opened. Constructed from high-grade steel and using the highest quality components, the OP150 has two motors to provide a high degree of operational reliability, better performance and longer life.

HASLER
America's better choice.®

A SUITE OF VALUE-ADDED PRODUCTS AND SERVICES THAT COMPLETE YOUR TOTAL MAILING SOLUTION

Today's fast-paced office environment requires your mailing operations to be as intelligent as the rest of your business. More than ever, you need a total solution that provides the capabilities to meet all your demands, while giving you control and transparency of every mail-related function.

Hasler's OP150 will dramatically increase office efficiency by allowing users to operate at peak performance. And to truly maximize productivity and efficiency, consider integrating a Hasler folder/inserter, a powerful address printer, high-speed tabber, or a digital mailing system into your mailing operations. Each of these products will add processing speed, enhanced performance and a professional appearance to your mail.

Intelligent mailing ensures that your entire mail process operates faster, simpler and more reliably. Hasler has the total mailing solution to meet all your important processing needs, today and as you change and grow in the future.
