KEY FEATURES

- **3" high print area from three individual print heads for maximum coverage/versatility**
- **Prints speeds of 34,000 postcards/hr**
- **Runs in-line with RENA T-750 and T-950 tabbers**
- **Five-Channel AccuTrak Transport with positional belt**
- **Integrated cartridge storage system**

The RENA Systems Envelope Imager XT 3.0 handles the most demanding mailing challenges time and time again. Time is of the essence, and with production speeds of over 34,000 postcards/hr. and 26,000 #10 envelopes/hr., the XT 3.0 gives you superior, reliable output.

It's versatile printing, too. A large 3" print area and three independent print modules give you the options for putting addresses, attention lines, postal barcodes, return addresses and indicia on mail pieces at the same time. The XT 3.0 accepts materials up to 3/8" thick.

Take advantage of an inkjet cartridge storage compartment to extend the life of your cartridges and increase their yield. The Five-Channel AccuTrak Transport – a wide center belt with a powerful vacuum assist – keeps pieces in place through transport. The outer transport belts can be customized to the size of the mail piece.

This is a full-featured, high volume, large capacity piece of equipment. The RENA Systems Envelope Imager XT 3.0 takes on any challenge with reliable and outstanding results.
