Improve Communication Impact While Reducing Costs

Neopost's document output management solutions open up a whole new world of mail creation possibilities. The DS-75's automatic file sorting and merging capabilities will optimize costs per recipient.

Moreover, the document output management solutions help you to add OMR or BCR marks to process jobs with variable page sets per recipient.

Productivity Made Easy

The high capacity vertical stacker will reduce incidences of unloading, thus enabling other tasks to be done in the meantime. It requires less handling and makes it possible to unload up to 500 envelopes every 8 minutes while running at maximum speed.

With its large **powerFold** capacity the DS-75 can handle up to 10 sheets in a single envelope. All sheets are folded together and not separately. Besides being faster, this also ensures a professional looking mail item and reduces the risk of jams.

Smart Solutions to Maximize Capacity

With its 725-sheet capacity, combined with high processing speed for multiple documents, the optional high capacity sheet feeder is the perfect choice for running multi-page applications where each recipient receives a different number of pages.

Furthermore, all optional feeders have been specially designed to feed a wide variety of paper types, including coated material and even small booklets. With its large loading capacity, the BRE's maxiFeeder helps reduce downtime, saving you time and maximizing productivity.

Productivity Made Easy

The Advanced Combination of Productivity, Versatility and Convenience

Are you working in an environment where mail matters and response time is key?

With its compact footprint, large loading and unloading capabilities and many enhanced features, usually available only on larger systems, the DS-75 brings you the highest level of convenience, productivity and versatility.

Several Configurations for a Wide Variety of Mail Items

By offering several feeder configurations, the DS-75 allows you to design and deliver attractive messages, making a major contribution toward efficient direct mail campaigns.

Its flexibility is essential for delivering a truly professional mail set (with all documents folded together) every time. It also ensures perfect presentation and reduces the risk of jams. Last but not least, it guarantees the integrity of your mail.

Smart Solutions to Maximize Flexibility

The exclusive **flexFeed** feeders enable you to process any document size or type. This provides full flexibility in combination with the unique semi-automatic envelope separation mechanism for feeding a wide variety of envelope types. You can use practically any size and type of material to address your prospective and current customers efficiently.

As a result, the DS-75 will make a key contribution toward enlarging your market and business opportunities by offering unlimited possibilities for transactional and direct mail applications.

Automatically Adapting to All Your Needs

There's no need for skilled operators thanks to the control panel with a graphical and intuitive touch screen that's able to maximize ease of use. Just select your job and you will be finished before you know it.

Alternatively, see how easy it is to create a new job using our exclusive **load'n'Go** intuitive procedure. Simply load your documents and envelopes and then press the start button. The DS-75 will automatically measure the length of all loaded documents as well as the envelope in order to adjust all settings and deliver the appropriate mail item.

Smart Solutions to Maximize Ease of Use

The DS-75 gives you quick, safe and easy access to all parts of the paper path. You will quickly be up and running again if a break in production occurs.

Furthermore, both the DS-75's exceptional ease of use and its extraordinary quietness are of paramount importance. As a result, it adapts perfectly to any working environment.

**Barcode Mail Manager:
Personalizing Mail Made Easy**

Not only does the barcode mail manager offer a fast and safe way of processing

personalized mail, it also ensures perfect presentation. It enables you to greatly improve direct marketing activities and thus customer relations. It also gives you the satisfaction of knowing that you can send more for less while easily optimizing franking rates.

The Solution For Multiple Pages and Various Inserts

The DS-75 has an innovative and very intuitive solution for processing documents with varying pages and inserts.

<p>Recipient A</p>  <p>2 page invoice + enclosure 'London'</p>	<p>Recipient B</p>  <p>1 page invoice</p>
<p>Recipient C</p>  <p>4 page invoice + enclosure 'Paris'</p>	

Simply select a grouping criterion, such as the invoice number, and you can collate multiple pages for the same recipient. You can even define different additional inserts for each group of recipients. This unique software solution enables you to design direct mail applications in only a few minutes.

**Customizing Your DS-75 to Your Needs
by Simply Choosing the Right Configuration:**

DS-75 configuration 1

- 2 standard feeders
- 1 expert or special feeder
- envelope catch tray

DS-75 configuration 2

- 2 standard feeders
- 1 expert or special feeder
- high capacity vertical stacker

DS-75 configuration 3

- 1 high capacity feeder
- 1 expert or special feeder
- high capacity vertical stacker

DS-75 configuration 4

- 1 high capacity feeder
- 1 maxiFeeder
- high capacity vertical stacker

Monitor, Secure and Track Your Production Output

Neopost offers you the security that your printed jobs are actually being mailed. Mail Piece Production Control adds a unique ID to each letter within the address block and builds up an audit trail for each production job. This provides you with real-time quality control and detailed line-item reports:

- Assurance that jobs are accurate and complete
- Real-time failure detection of missing or 'out-of-order' mail pieces
- A hard copy 'Proof of Mailing' report for each mail production job

Specifications

Speed	Up to 3,600/hour

Standard configuration: 3 feeders with catch tray

Length x Height x Depth	1,300 x 725 x 454 mm
Weight	75 kg

Total Mail Flow Optimization: Send More For Less

The Neopost **insert'n Frank** solution allows you to automate your total mail flow by connecting the DS-75 to a Neopost postage machine. Together with the Neopost's flexFeed feeders and high folding capacity this enables you to optimize franking rates. Moreover, it will reduce downtime while processing all mail in one run.

Neopost Online Service: You Never Work Alone

The Neopost Online Service (OLS) maximizes the DS-75's production availability. Thanks to proactive maintenance, problems can be prevented or solved faster. Its user-friendly capabilities will enable regular as well as occasional users to maintain mail processing at the highest level while enjoying the full support of the Neopost service team.

Why Choose Neopost?

Neopost is a global leader in mailing solutions, shipping services and digital communications. We believe that people are the key to business success. That's why our products and services are tailored to help your organization improve the quality of its interactions and bring people closer together.

In this age of multichannel communications, we guide and empower you to interact in new and innovative ways. We advise you on how to create cost-cutting synergies. And we deliver global coverage with a strong local presence, offering you continual support by phone, onsite or online.

Today, Neopost is present in 31 countries and has a network of partners in more than 90 countries. We promote responsible business and sustainable development through our products and outreach programs. And our 6,200 employees worldwide are committed to making your interactions more responsive and more powerful – offering you a competitive edge that will open up a wealth of business opportunities.
